Software Developer C# .NET (f/m/x)

Description

SOFA 1 GmbH has specialized in the development of customer-oriented software solutions. We cover all modern media. From interactive prototypes, mobile apps, cloud solutions to modern web applications, we meet every customer request.

Our primary goal is to simplify business processes without compromise. Our references range from large international corporations to medium-sized and small companies.

The collective agreement minimum monthly salary in the standard level is EUR 3,094.00 gross (full-time). We are not satisfied with the minimum and therefore guarantee a payment that corresponds to your personal qualifications and experience.

Responsibilities

- Further development and reprogramming of cloud solutions based on Microsoft Azure and .NET C # using Microsoft Visual Studio.
- Planning, programming and documentation.
- Independent development and implementation of application concepts and total solutions.
- Continuous care and technical support.

Qualifications

- Constant interest in the latest technologies.
- Min. 5 years of professional experience in programming with .NET C # based on Microsoft Visual Studio.
- Practical experience in the area of .NET Framework, .NET CORE and .NET Standard.
- Min. 5 years of professional experience with relational databases (Microsoft Sql Server, MariaDB, ...).
- Basic experience with CI / CD
- Willingness to analyze and develop existing program processes.
- High quality awareness, customer orientation and economic thinking.
- Initiative and active exchange in the team for knowledge transfer.
- Business education (HAK / FH / UNI) is an advantage.
