## Angular Developer (f/m/x)

### Description

SOFA 1 GmbH has specialized in the development of customer-oriented software solutions. We cover all modern media. From interactive prototypes, mobile apps, cloud solutions to modern web applications, we meet every customer request.

**Our primary goal is to simplify business processes without compromise.**

The SOFA 1 team mainly works on site in our office in Mattighofen. We are constantly evolving, working with state-of-the-art technologies on a variety of projects for well-known customers in Austria, Europe and the USA.

### YOUR DAILY BUSINESS

- Further development and reprogramming of web solutions (focus on Angular, TypeScript, Html, Javascript, CSS).
- Planning, programming and documentation.
- Independent development and implementation of application concepts and total solutions.
- Continuous care and technical support.

### YOUR SKILLS

- Constant interest in the latest technologies.
- Min. 2 years of professional experience in the field of web programming.
- Basic experience with CI / CD
- Willingness to analyze and develop existing program processes.
- High quality awareness, customer orientation and economic thinking.
- Initiative and active exchange in the team for knowledge transfer.
- Business education (HAK / FH / UNI) is an advantage.
- Very good knowledge of German (C1) and English.

### WE OFFER

For this position, we offer a salary of **EUR 3,300** gross/month, which is in line with the market. In addition, we offer every employee **the chance of an electric company car or e-bike!** We are looking forward to your application! Send us your CV and letter of motivation, stating a possible starting date, recommendations and references.
