App Developer (f/m/x)

SOFA 1

We develop ASSET1 – and make it better every day.

We don't just write code – we build **ASSET1**, a platform that helps companies manage their equipment, warehouses, and events without chaos, Excel madness, or endless searching.

Our mission? Smart processes that work. We continuously evolve ASSET1, optimize existing features, and develop new ones that are *actually needed*.

Red Bull relies on these smart solutions – and you can be part of building them!

WE GO AGAINST THE TREND!

- We work *together* as a team and with our clients on site (38.5 h/week)
- Teamwork instead of solo coding – knowledge sharing & mutual growth
- Innovative software solutions for exciting industries and companies
- State-of-the-art technologies – and you're in control!

#joinsofa1

YOUR DAILY BUSINESS

AI-SUPERVISION INSTEAD OF PURE CODING

- Further development of **ASSET1** – our leading platform for event & warehouse logistics
- You'll work with AI-powered coding tools that take care of routine tasks
- Your role: guide AI, optimize it, and develop creative solutions
- Xamarin, .NET MAUI & C# are your tools – but AI is your co-developer
- Planning, documentation, and quality assurance – supported by smart algorithms

YOUR SKILLS

- ☑ Interest in AI-assisted software development
- ☑ Experience with Xamarin/.NET MAUI
- ☑ Analytical thinking: guide and monitor AI effectively
- ☑ Proactive mindset and team collaboration for the best results
- ☑ High quality standards and customer focus

WE OFFER

- ☑☑ Competitive salary starting at EUR 3,300 gross/month (depending on qualifications)
- ☑☑ Company e-car or e-bike – for all top performers!
- ☑☑ Cutting-edge tech tools & AI support for more efficient work
- ☑☑☑☑ Overtime only in exceptional cases

☑☑ You're not just developing software – you're shaping the future.
